

November 1st 2005

After a long process we are delighted to announce that A Rocha Lebanon has been granted official status as a Lebanese NGO by the Ministry of Interior.

We received our signed علم وخبر
(permission paper) last week and have the number 236 AD allocated by the ministry.

To date, although we have been governed by our own local board for a number of years, we have officially been a branch of an international society. We believe that our new status as a legally registered Lebanese society will provide us with a better legal frame work to meet the challenges in working in the Lebanese world of the environment in the coming years.

A ROCHA

Together, caring for God's creation
