Microplastics Bibliography

Contents

Citizen science projects ............................................................................................................. 1
Effect of microplastics on the marine environment ................................................................. 2
Microbial colonization of microplastics ....................................................................................... 3
Microplastics in seabirds .............................................................................................................. 4
Microplastics in seafood ............................................................................................................ 5
Monitoring marine litter ........................................................................................................... 5
Overview of plastics in the marine environment ....................................................................... 5
Pollutants and microplastics ..................................................................................................... 6
Projects sampling microplastics on sandy beaches ................................................................. 7
Projects sampling microplastics on the sea floor ................................................................. 9
Projects sampling microplastics on the sea surface ............................................................. 9
Sampling and identification methods ....................................................................................... 10
Sources of microplastics ........................................................................................................... 10
Uptake of microplastics by marine organisms ......................................................................... 10

Citizen science projects

Hidalgo–Ruz V & Thiel M (2013) Distribution and abundance of small plastic debris on beaches in the SE Pacific (Chile): A study supported by a citizen science project, Marine Environmental Research 87–88: 12–18

**Effect of microplastics on the marine environment**

MICRO 2016 (2016), Lanzarote Declaration, International Conference on the Fate and Impact of Microplastics in Marine Ecosystems: From the Coastline to the Open Sea, Lanzarote, Canary Islands, 21 June 2016

**Microbial colonization of microplastics**

Caruso G (2015) Microplastics in marine environments: Possible interactions with the microbial assemblage, Pollution Effects & Control 3: 2, dx.doi.org/10.4172/2375-4397.1000e111

**Microplastics in seabirds**

**Microplastics in seafood**

European Food Safety Authority (2016) Presence of microplastics and nanoplastics in food, with particular focus on seafood, European Food Safety Authority Journal 14(6): 4501

**Monitoring marine litter**

**Overview of plastics in the marine environment**

Ivar do Sul JA & Costa MF (2014), The present and future of microplastic pollution in the marine environment, Environmental Pollution 185: 352–364

**Pollutants and microplastics**

Projects sampling microplastics on sandy beaches

Ivar do Sul JA, Spengler A & Costa MF (2009) Here, there and everywhere. Small plastic fragments and pellets on beaches of Fernando de Noronha (Equatorial Western Atlantic), Marine Pollution Bulletin 58: 1236–1238

Young AM & Elliott JA (2016) Characterization of microplastic and mesoplastic debris in sediments from Kamilo Beach and Kahuku Beach, Hawaii, Marine Pollution Bulletin 113: 477–482

Projects sampling microplastics on the sea floor

Projects sampling microplastics on the sea surface

**Sampling and identification methods**

**Sources of microplastics**

**Uptake of microplastics by marine organisms**

Farrell P & Nelson K (2013) Trophic level transfer of microplastic: *Mytilus edulis* (L) to *Carcinus maenas* (L), Environmental Pollution 177: 1–3

Frias JPGL, Otero V & Sobral P (2014) Evidence of microplastics in samples of zooplankton from Portuguese coastal waters, Marine Environmental Research 95: 89–95

Setälä O, Fleming-Lehtinen V & Lehtiniemi M (2014) Ingestion and transfer of microplastics in the planktonic food web, Environmental Pollution 185: 77–83
