

FITTING A SOLAR PANEL ON EXISTING HOME GEYSER:

- 1) PIPES INSULATED INCLUDING THROUGH WALL/ROOF
- 2) PIPES LEVEL OR SLOPING DOWNWARDS TOWARDS PANEL NO UPWARD SLOPES ANYWHERE

- SOLAR PANEL:
- NORTH FACING
 - >20° ANGLE
 - > 4 HOURS SUN DAILY

- PRINCIPLES FOR FITTING A SOLAR PANEL ON EXISTING HOME GEYSER:
- 1) TOP OF SOLAR PANEL SHOULD BE LOWER THAN THE BOTTOM OF THE GEYSER – THE MORE THE BETTER
 - 2) PANEL AND GEYSER AS NEAR TO EACH OTHER AS POSSIBLE TO MINIMISE HEAT LOSS
 - 3) SEE DIAGRAMS FOR SETUP
